### **Hospital Privileges:**

Swedish Medical Center, Seattle, WA

### **Patient/Physician Philosophy:**

What drew me to the OB/GYN practice was the remarkable opportunity to take care of women through so many critical parts of their lives, from puberty through menopause. The long term relationships I have with my patients are often like lifelong friendships. I have learned many things in the 20 years I have been in practice...the most important ones are to listen & learn.

### **Personal Interests:**

Spending time with my husband and 2 children. Organic gardening and the wonderful Northwest outdoor recreation.

### **Why Minor & James Medical:**

It is our goal to identify the patient's concerns and to provide her with the information she needs to make informed decisions about her health care.
